From: National Archives and Records Administration

Subject: Missing JFK Assassination Records Collection Document 181-10002-10216

To: The File

This memorandum briefly summarizes the status of a missing document in the President John F. Kennedy Assassination Records Collection (JFK Collection) and documents the National Archives and Records Administration's (NARA) efforts to provide representative, but not identical, information, in lieu of the missing document, from records available at the Lyndon B. Johnson Presidential Library in Austin, Texas.

While preparing previously-restricted Kennedy Assassination Records Collection documents for release, the JFK processing team could not locate the document associated with Record Identification Form (RIF) 181-10002-10216. The unclassified, 15-page document belongs to the record series "NL Administrative Files [Access and Reference Case Files]" and pertains to President Lyndon Johnson's Daily Diary Entries, June 6, 1967. According to available information on the RIF, the Johnson Presidential Library sent the document to the Office of Presidential Libraries (NL), likely during 1977 or 1978.

An extensive search of records in the JFK Collection, the Office of Presidential Libraries, and the Johnson Presidential Library, did not locate any possible original administrative correspondence associated with the Record Identification Form. Knowing that the missing document contains 15 pages and pertains to the Johnson Daily Diary Entries for June 6, 1967, it is our best assumption that the document probably consists of brief, if any, administrative correspondence, and multiple pages from the Daily Diary Entries.

For informational purposes, we are including this memo and a copy of the Johnson Daily Diary Entries for June 6, 1967, with Record Identification Form 181-10002-10216. This open-in-full document is also available on the Johnson Presidential Library's website at http://www.lbjlibrary.net/collections/daily-diary.html.

| The President in the White House Theatre for TAPING of Statement The cease-fire vote of the Security Council opens a hopeful path away from danger in the Middle East. It reflects responsible concern for peace on the part of all who voted for it. The United States has warmly supported this resolution. We hope the parties directly concerned will promptly act upon it. We believe a cease-fire is the necessary "first step", in the words of the resolution itself a first step toward what we all must hope will be a new time of settled peace and progress for all the peoples of the Middle East. It is toward this end that we shall now strive. | | | 1 | | 4 | | | | | | | | •(| 2 | | | |
